Dear Sir,

This has reference to the letter received from the above office asking for the explanation / justification towards our application for trading of 280 items; we are herewith submitting the same as below.

1. Our majority customers are in Pharmaceutical Industries, we engage with them right from their very initial stage of product development and work with them at laboratory scale in their R&D. Though most of our present & prospective customers have manufacturing units in SEZ and/or EOU, their R&Ds are located in DTA
2. Our product can only be accepted after it gets approval from their R&D centre, once it gets accepted the same will be scaled up to the commercial scale. Usually it takes 2 to 3 years.
3. By adding these products, we will have readily available stock for our existing /prospective customer by which we can reduce the delivery period.
4. Some time customer asks to supply in small quantity and in short time, this involves huge cost of Transportation if the same small quantities imported from manufacturing site which are located outside India.
5. Some products are not permitted to transport by Air, hence we have to bring it by SEA, which take longer delivery period.
6. Some products are temperature controlled and also not permitted to transport by Air, so if we need to supply to the customer we need to bring in Reefer container which involves huge cost of transportation and longer delivery period.
7. Our existing facility at Dahej, has suitable infrastructure for the same.
8. By doing this trading activity, we can expand our customer list, which will result in boost in manufacturing activity.
9. We also request you to allow us to trade in DTA, with Payment of Duty.
